Services Offered

— Understanding Cardiac Surgery

Our patient-centric approach ensures tailored treatment plans based on individual factors like medical history and lifestyle preferences

— Approach to Treatment

A multidisciplinary team comprising cardiologists, cardiac surgeons, nurses and therapists delivers holistic care, emphasizing patient education and involvement in decision-making

— State-of-the-Art Facilities

Our comprehensive protocols cover pre-operative assessments, intraoperative monitoring with advanced techniques, and post-operative care including cardiac rehabilitation programs and long-term follow-up

— Coronary Artery Bypass Surgery

Minimally invasive and traditional procedures for coronary artery disease.

— Valve Repair and Replacement

Expertise in repairing and replacing heart valves.

— Congenital Heart Surgery

Specialized care for children and adults with congenital heart defects.

— Heart Failure Management

Comprehensive treatment plans for heart failure patients.
